Basics

Hobbies & interests_

- Own development projects
- Learning new technologies
- Member of snooker club
- Multiplayer games
- Listening to music
- Brain trainers

Hi! I am Steff_
Full stack developer / DevOps enthusiast

Developer with a passion for web development and DevOps. Motivated to expand knowledge and skills with the latest technologies and frameworks.

Loves working on projects as a team player in an agile environment. Focused on getting it right, and aware that small details can have a big impact.

Work experience_
Many lines of code and coffee

Software Developer at Codefined
May 2021 - Present

Analyst Developer at aariXa
July 2017 - April 2021

aariXa's development stack includes: Angular, .NET Core, MS SQL, Azure, Windows Server, ... so mainly focused on Microsoft technologies. I have been working on a new Cloud Native, realtime, multi-tenant web app hosted as microservices which run in Docker containers as an in-house developer.

CRM Developer at Bridgestone
October 2016 - June 2017

I have worked on a project for Bridgestone as CRM Developer, customizing Dynamics 365 CRM with business logic. Like writing plugins in C# and building custom UI components and apps with TypeScript, Knockout.js and many more of the latest technologies.

Certification_
Verification of knowledge and skills

Microsoft Exam 70-483 - Programming in C#
September 21st, 2018

Education_
Hours of learning new technologies

Professional Bachelor's Degree in Applied Computer Science
September 2013 - June 2016

Specialization track: Application Development - Web & Mobile

Skills & technologies_
I try to learn something new every single day

.NET • C# • Web API • EF • IdentityServer4 • ABP.io • GraphQL • Node.js • SQL Server • Docker • Kubernetes • Azure • Azure DevOps • MongoDB • RabbitMQ • JavaScript • Angular • Vue • Nuxt.js • AWS • GCP • CI/CD • Windows Server • Ubuntu Server • ELK stack • Grafana • OpenSSL • CA • GitHub • Dynamics 365 CRM • Adobe CC
